

ORDINARY COUNCIL

Monday 6 September 2021

Ordinary Council Meeting

Monday, 6 September 2021

Items of Business

Item	Subject	Page
09.01	CREATION OF OFFICE OF DEPUTY MAYOR	
	Attachment : Deputy Mayor Nomination Paper	4
12.01	PETITION - SUPPORT FOR FLUORIDATION OF THE WATER SUPPLY AND PROPOSED COMMUNITY POLL ON FLUORIDATION OF THE WATER SUPPLY	
	Attachment : Petition in Support of Fluoridation of Town Water Supply.....	6

1 Leadership and Governance

What we are trying to achieve

A community that works together in decision making that is defined as ethically, socially and environmentally responsible.

What the result will be

We will have:

- A community that has the opportunity to be involved in decision making
- Open, easy, meaningful, regular and diverse communication between the community and decision makers
- Partnerships and collaborative projects, that meet the community's expectations, needs and challenges
- Knowledgeable, skilled and connected community leaders
- Strong corporate management that is transparent

How we will get there

- 1.1 Inform and engage with the community about what Council does using varied communication channels
- 1.2 Maintain strong partnerships between all stakeholders - local, state and federal — so that they are effective advocates for the community
- 1.3 Demonstrate leadership
- 1.4 Use innovative, efficient and sustainable practices
- 1.5 Ensure strong corporate and financial management that is transparent and accountable

NOMINATION PAPER for the ELECTION OF DEPUTY MAYOR

We the undersigned, hereby nominate

for the position of DEPUTY MAYOR for the ensuing term
(requires two (2) or more Councillors to sign nomination)

I, the undersigned, hereby consent to the above nomination of myself to the
position of Deputy Mayor

4 Your Natural and Built Environment

What we are trying to achieve

A connected, sustainable, accessible community and environment that is protected now and into the future.

What the result will be

We will have:

- Effective management and maintenance of essential water, waste and sewer infrastructure
- A community that is prepared for natural events and climate change
- Sustainable and environmentally sensitive development outcomes that consider the impact on the natural environment
- Accessible transport network for our communities
- Infrastructure provision and maintenance that meets community expectations and needs
- Well planned communities that are linked to encourage and manage growth
- Accessible and protected waterways, foreshores, beaches and bushlands
- An environment that is protected and conserved for future generations
- Renewable energy options that are understood and accessible by the community

How we will get there

- 4.1 Provide (appropriate) infrastructure and services including water cycle management, waste management, and sewer management
- 4.2 Aim to minimise the impact of natural events and climate change, for example, floods, bushfires and coastal erosion
- 4.3 Facilitate development that is compatible with the natural and built environment
- 4.4 Plan for integrated transport systems that help people get around and link our communities
- 4.5 Plan for integrated and connected communities across the Port Macquarie-Hastings area
- 4.6 Restore and protect natural areas
- 4.7 Provide leadership in the development of renewable energy opportunities
- 4.8 Increase awareness of issues affecting our environment, including the preservation of flora and fauna

PETITION

To the Councillors of Port Macquarie-Hastings Council

The Petition of the residents of the Port Macquarie-Hastings Council (PMHC) brings to the attention of the Council, that we the undersigned health care professionals and scientists;

- Note the council resolution to conduct a Community Poll in conjunction with the Local Government elections to read "Yes or No: Would you prefer that Council stop adding fluoride (hydrofluorosilicic acid) to the public water supply?"
- Recognise that dental health is a key foundation of overall health and wellbeing
- Support the ongoing fluoridation of the PMHC water supply as an important public health measure which is effective in reducing tooth decay
- Do not support a Community Poll as a useful or appropriate tool in decision making regarding public health measures like water fluoridation
- Hold serious concerns about the spending of \$90,000 of hard-earned ratepayers' money on a Poll that is non-binding when this money could be spent on other important projects for the Port Macquarie Hastings community
- Hold serious concerns regarding the proposed wording of the poll and the misleading and inaccurate claims of harm and ineffectiveness of water fluoridation made by the "Yes" information sheet provided to the public on the PMHC website
- Note the advice given to the council by Minister for Health and Medical Research Brad Hazzard to reword the poll question to read "Do you agree with adding fluoride to the water supply to try and prevent tooth decay?"

The undersigned petitioners therefore ask the Council to

- Recognise the support of the undersigned health professionals and scientists for the ongoing fluoridation of the PMHC water supply at the next council meeting
- Revoke its decision to undertake a community poll on the matter of water fluoridation
- Request council staff to seek expert review of the fluoride information sheets provided to the public on the PMHC website, and remove all misleading and inaccurate claims of harm and ineffectiveness of water fluoridation from the council website
- If unable or unwilling to revoke its decision on the Community Poll, amend the wording of the poll to align with those used in other communities "Do you agree with adding fluoride to the water supply to try and prevent tooth decay?"

You acknowledge that any information provided below may be a public record when considered by Council.

PETITION

To the Councillors of Port Macquarie-Hastings Council

The Petition of the residents of the Port Macquarie-Hastings Council (PMHC) brings to the attention of the Council, that we the undersigned health care professionals and scientists;

- Note the council resolution to conduct a Community Poll in conjunction with the Local Government elections to read "Yes or No: Would you prefer that Council stop adding fluoride (hydrofluorosilicic acid) to the public water supply?"
- Recognise that dental health is a key foundation of overall health and wellbeing
- Support the ongoing fluoridation of the PMHC water supply as an important public health measure which is effective in reducing tooth decay
- Do not support a Community Poll as a useful or appropriate tool in decision making regarding public health measures like water fluoridation
- Hold serious concerns about the spending of \$90,000 of hard-earned ratepayers' money on a Poll that is non-binding when this money could be spent on other important projects for the Port Macquarie Hastings community
- Hold serious concerns regarding the proposed wording of the poll and the misleading and inaccurate claims of harm and ineffectiveness of water fluoridation made by the "Yes" information sheet provided to the public on the PMHC website
- Note the advice given to the council by Minister for Health and Medical Research Brad Hazzard to reword the poll question to read "Do you agree with adding fluoride to the water supply to try and prevent tooth decay?"

The undersigned petitioners therefore ask the Council to

- Recognise the support of the undersigned health professionals and scientists for the ongoing fluoridation of the PMHC water supply at the next council meeting
- Revoke its decision to undertake a community poll on the matter of water fluoridation
- Request council staff to seek expert review of the fluoride information sheets provided to the public on the PMHC website, and remove all misleading and inaccurate claims of harm and ineffectiveness of water fluoridation from the council website
- If unable or unwilling to revoke its decision on the Community Poll, amend the wording of the poll to align with those used in other communities "Do you agree with adding fluoride to the water supply to try and prevent tooth decay?"

You acknowledge that any information provided below may be a public record when considered by Council.

- Hold serious concerns about the spending of \$90,000 of hard-earned ratepayers' money on a Poll that is non-binding when this money could be spent on other important projects for the Port Macquarie Hastings community
- Hold serious concerns regarding the proposed wording of the poll and the misleading and inaccurate claims of harm and ineffectiveness of water fluoridation made by the "Yes" information sheet provided to the public on the PMHC website
- Note the advice given to the council by Minister for Health and Medical Research Brad Hazzard to reword the poll question to read "Do you agree with adding fluoride to the water supply to try and prevent tooth decay?"

The undersigned petitioners therefore ask the Council to

- Recognise the support of the undersigned health professionals and scientists for the ongoing fluoridation of the PMHC water supply at the next council meeting
- Revoke its decision to undertake a community poll on the matter of water fluoridation
- Request council staff to seek expert review of the fluoride information sheets provided to the public on the PMHC website, and remove all misleading and inaccurate claims of harm and ineffectiveness of water fluoridation from the council website
- If unable or unwilling to revoke its decision on the Community Poll, amend the wording of the poll to align with those used in other communities "Do you agree with adding fluoride to the water supply to try and prevent tooth decay?"

PETITION

To the Councillors of Port Macquarie-Hastings Council

The Petition of the residents of the Port Macquarie-Hastings Council (PMHC) brings to the attention of the Council, that we the undersigned health care professionals and scientists;

- Note the council resolution to conduct a Community Poll in conjunction with the Local Government elections to read "Yes or No: Would you prefer that Council stop adding fluoride (hydrofluorosilicic acid) to the public water supply?"
- Recognise that dental health is a key foundation of overall health and wellbeing
- Support the ongoing fluoridation of the PMHC water supply as an important public health measure which is effective in reducing tooth decay
- Do not support a Community Poll as a useful or appropriate tool in decision making regarding public health measures like water fluoridation
- Hold serious concerns about the spending of \$90,000 of hard-earned ratepayers' money on a Poll that is non-binding when this money could be spent on other important projects for the Port Macquarie Hastings community
- Hold serious concerns regarding the proposed wording of the poll and the misleading and inaccurate claims of harm and ineffectiveness of water fluoridation made by the "Yes" information sheet provided to the public on the PMHC website
- Note the advice given to the council by Minister for Health and Medical Research Brad Hazzard to reword the poll question to read "Do you agree with adding fluoride to the water supply to try and prevent tooth decay?"

The undersigned petitioners therefore ask the Council to

- Recognise the support of the undersigned health professionals and scientists for the ongoing fluoridation of the PMHC water supply at the next council meeting
- Revoke its decision to undertake a community poll on the matter of water fluoridation
- Request council staff to seek expert review of the fluoride information sheets provided to the public on the PMHC website, and remove all misleading and inaccurate claims of harm and ineffectiveness of water fluoridation from the council website
- If unable or unwilling to revoke its decision on the Community Poll, amend the wording of the poll to align with those used in other communities "Do you agree with adding fluoride to the water supply to try and prevent tooth decay?"
